PROJECTS & CASE STUDIES

Google Ads Search Campaign Optimization — Zero to 72 Conversions

- Audited an underperforming live campaign (31 impressions, 26 clicks, 0 conversions, 0.05 ROAS); diagnosed low impression share and missing conversion tracking.
- Restructured keywords with broader match types and negative keywords, set up conversion tracking via GTM, and rewrote ad copy for relevance.
- Result: Conversions grew 0 to 72, impressions rose to 5,468 (+17,529%), clicks rose to 1,256 (+4,738%), CPC dropped 35%, and ROAS improved from 0.05 to 2.53.

Meta Ads Lead Generation — Campaign Optimization

- Analyzed two live Meta Ads lead generation campaigns suffering high cost per lead (Rs.172–Rs.183) and limited reach due to missing attribution setup and broad targeting.
- Fixed the attribution window to 7-day click, refined audience targeting, and scaled budget from Rs.200 to Rs.350/day with performance monitoring.
- Result: CPL reduced from Rs.183 to Rs.101 (-44.7%), leads grew from 1,041 to 1,892 (+81.7%), and reach increased by 150%.

Grocery Store & B2B Lead Websites — GA4 & GTM Tracking (Demo Projects)

- Built and deployed a live grocery e-commerce site; configured 9+ custom GA4 events via GTM (add_to_cart, purchase, form_submit, login, sign_up, scroll, page_view, and more) with full funnel tracking across 9 of 12 pages.
